

Vantage Vector[®]

The power of video
and radar sensor fusion

Dilemma Zone Mitigation

Red light running &
collision avoidance

Bicycle

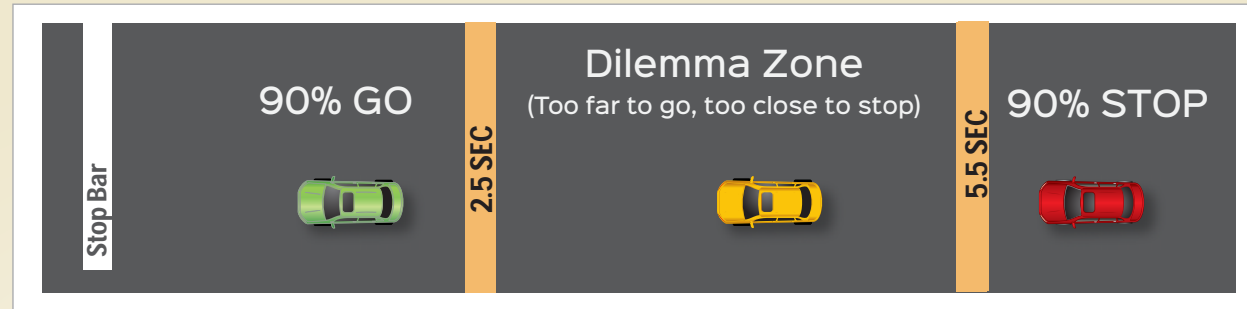

Differentiation

Provides special timing
for bicycles

Pedestrian Detection

Detailed metrics of
pedestrian movements

Stop-bar | Video

Advanced | Radar

Single Sensor

Stop-bar
& Advanced

Streaming Video to TMC

Easy to connect, live views
for traffic operations

Traffic Data

Enhanced count, speed, and
occupancy (CSO) measurements
